

## Intro to APES Video Assignment

Watch the following short video:

<https://www.youtube.com/watch?v=LE9KTG9PFho&feature=youtu.be>

**Directions:** Answer the following questions. Do not write questions.

1. AP Environmental Science studies the interaction between \_\_\_\_\_ and \_\_\_\_\_ systems.
2. EXPLAIN what happened at Easter Island?
3. Who was Rachael Carson? What did she study? Why is a significant figure in APES?
4. What does the blue color represent in the model? What does the yellow color represent in the model? What does the red color represent in the model?
5. What does Sustainability mean to you? (look it up if you have to)
6. What is an ecological footprint?
7. What is the 1<sup>st</sup> Section of the APES test comprised of? How much of the total score is it worth?
8. What is the 2<sup>nd</sup> Section of the APES test comprised of? How much of the total score is it worth?
9. Draw and complete the Flow Chart (diagrams and arrows) that outlines the structure of the class (the image that is shown for the last minute of the video).
